Leaf Exchange Program – Jackson County Air Quality: The Leaf Exchange Program gives residents an alternative to burning leaves, which contributes to particulate matter and other pollutants in the air. Jackson County Air Quality compiles a contact list of people who have leaves to dispose of, and another list of those who are looking for leaves to make compost. Leaf donors and leaf recipients can then contact each other to arrange for pick up and delivery of the leaves. To add your name to the list, contact Jackson County Air Quality, 541.774.8207.
